DREAMHOME

Complete Website Source Code

HTML · CSS · JavaScript

Prepared for: Ayushi Kumari
B.Tech Information Technology · Section IT-A · Semester 1
KIET Group of Institutions, Ghaziabad
Subject: Web Designing & Cloud Computing
Roll Number: 2630BTECH2349

Includes all 8 HTML pages, shared CSS, shared JavaScript and setup instructions.

Project file structure

```
DREAMHOME — SOURCE CODE BUNDLE
==============================

Files:
  index.html                Home page
  buy.html                  Properties for sale + filters
  rent.html                 Rental listings + filters
  property-details.html     Property details + save interaction
  emi-calculator.html       Home-loan EMI calculator
  post-property.html        Property listing form + image preview
  agents.html               Agent profiles
  contact.html              Contact form
  css/style.css             Shared responsive styling
  js/script.js              Shared JavaScript interactions

How to run:
1. Extract this folder.
2. Open the folder in Visual Studio Code.
3. Open index.html and run it using the Live Server extension, or open index.html in a browser.
4. Keep the css and js folders in the same locations; the HTML files link to them using relative paths.

Important:
This is a complete, consistent recreated source-code set for the DreamHome practical based on the project structure and page requ
